

ICON

AN ICON, OR RATHER, TWO

A sophisticated, iconic line, a surface to be admired and touched, **RADIALIGHT DUAL TERM** technology, the warm embrace of radiant heating, the efficiency of convection.

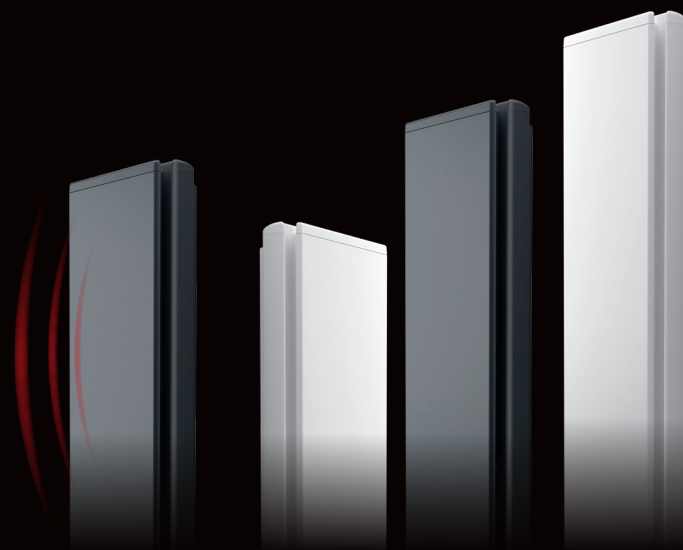

You can now have all of this in a single product, or rather, two, in ice white and anthracite grey, with **ICON**.

Be sure you have a real piece of furniture in your favourite room. Protruding only 45 cm, the **ICON** radiant panel will heat you and your loved ones to the core, using radiant technology certified by Radialight and with a design that will not be out of place in any room you want to try it in.

ICON fits in with all your rooms,
even the most sophisticated

INDUSTRY 4.0 COMFORT SO YOU CAN SAVE

The **ICON** range of radiators comes in 4 different models, in terms of size and power, each suited to heating rooms from 5 m² to 30 m².

The digital controls on **ICON** give you access to smart Industry 4.0 technology, which makes it possible to heat your home quickly, while reducing energy consumption.

To heat only as much as and when required, in step with your life, to know how much you are saving, indicating the ideal temperature for all your needs, to a tenth of a degree.

ICON can be fitted with a set of towel rails to become a heated towel rail in your dream bathroom

HOME AUTOMATION, BECAUSE TIME IS YOUR MOST PRECIOUS RESOURCE

ICON also comes in Wi-Fi versions, which combine standard controls - always available anyway - with smart home technology, at your service at any time.

With the Radialight APP, that can be downloaded and updated free of charge, you will have your heating system under control at all times, from your smartphone, wherever you are. Simply - using your home Wi-Fi with no additional costs or systems.

In a single act you can manage sets of products, obtain reports on your heating consumption and costs updated in real-time, be notified of unexpected events, and a lot more.

ICON, BEAUTY IS OBJECTIVE

- DUAL THERM heating system: the pleasure of irradiation, and the speed of natural convection
- Various power levels, for rooms of all sizes
- Two colour finishes: ice white or anthracite grey, both with satin finish.
- Industry 4.0 electronic controls for all versions: temperature setting to a tenth of a degree, 5 different operating modes, weekly programming, and consumption data
- Smart home technology thanks to the Radialight APP available on Wi-Fi versions
